Indian Institute of Technology Madras

Outline

- Preamble
 - Motivation
 - Abstraction
 - Terminologies
- Doing research
 - CS Research areas
 - Workflow
 - Discussion and Idea
- Writing up research
 - Methods
 - Standard Template
 - General Tips
- Demo

Motivation

Seeking to find answers to the unknown (why?)
Questions are a natural thing of
a curious mind.

E.g. A child with a new toy

Research: 10000-feet view

Research: 10000-foot view

Prof. Matt Might's blog <https://matt.might.net/articles/phd-school-in-pictures/>

Research: 10000-foot view

Prof. Matt Might's blog <https://matt.might.net/articles/phd-school-in-pictures/>

Abstraction

Researcher

- Google Map: Route from home to College
- Internet: Routing protocol
- Google Map: Show me the restaurants nearby
- Friends suggestion in facebook
- Shortest Path Problem
- Single Source Shortest Problem

Terminologies

- Research Work
 - Research Problem
 - Literature
-
- Write-up = Text version of idea
 - Venue = Conference/Journal
 - Paper = Published work
 - Manuscript = Unpublished work

CS Reseach

- Theory CS
- Systems
- Intelligent Systems

CS Research

- **Theory CS**
 - Algorithms, Graph theory,
 - Logic, Complexity,
 - Cryptography, ..
- Systems
- Intelligent Systems

Thanks to <https://www.csa.iisc.ac.in/category/research/>

CS Research

- Theory CS
- **Systems**
 - Compilers, Networks
 - DBMS, Architecture,
 - OS, Wireless,
 - Embedded, Parallel
- Intelligent Systems

Thanks to <https://www.csa.iisc.ac.in/category/research/>

CS Research

- Theory CS
- Systems
- **Intelligent Systems**
 - AI, ML, DL,
 - NLP, PR
 - Game theory, DS

Thanks to <https://www.csa.iisc.ac.in/category/research/>

How to choose research area/problem

- Most frequently asked question!

Courtesy: Tinkerbell [2008] Disney Animation Movie

How to choose research area/problem

- Through Courses
- Attend research seminars/talks
- Attend conferences talks
- Read Survey papers

Useful Websites

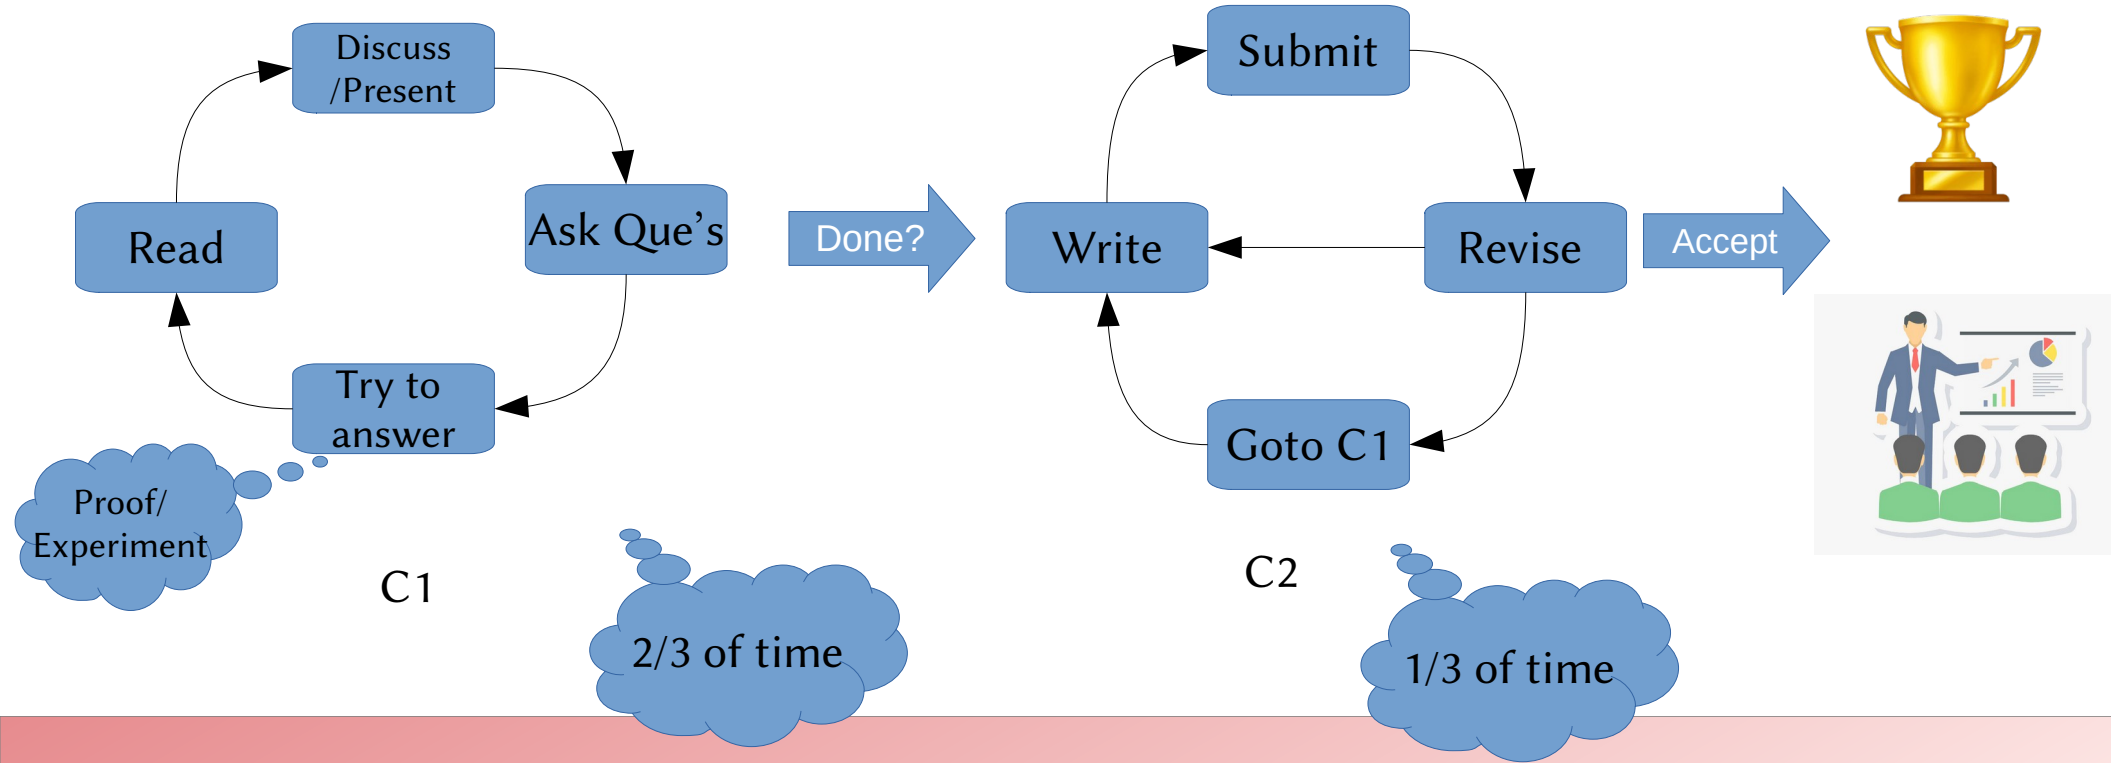

- [Google Scholar](#)
- [DBLP](#)

Doing research – Ask and answer question

- Play with small examples --> properties
- Ask a lot of small questions
- Answer some of those
- There is a bigger question //which no one knows the answer yet!

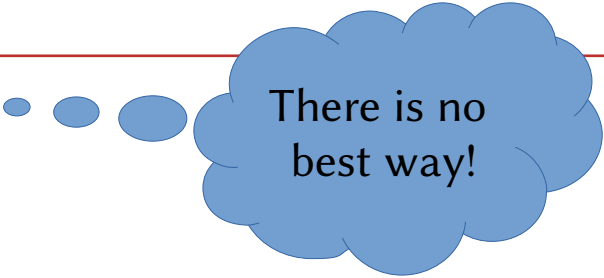

Workflow of any research work

Reading papers

- What is best way to read a paper?
- Read
 - Abstract and Conclusion
 - Section heading
 - Figures, Plots
 - Remaining Sections
 - Read multiple times

There is no
best way!

Reading papers

- Video-presentation in conference or,
- Seminar Talk of a Paper
- Presentation slides of a Paper

- To understand a paper better
 - While reading, in-between
 - Pause and think how would you answer the question posed?
 - Your answer might be wrong
 - But, the process helps to understand techniques in paper better :-)

Reading papers

Have a different perspective!

Discussion and Ideas

Ideas are
important

Writing up Research

“Of equal importance to solving a problem is the communication of that solution to others.”
- Donald Knuth

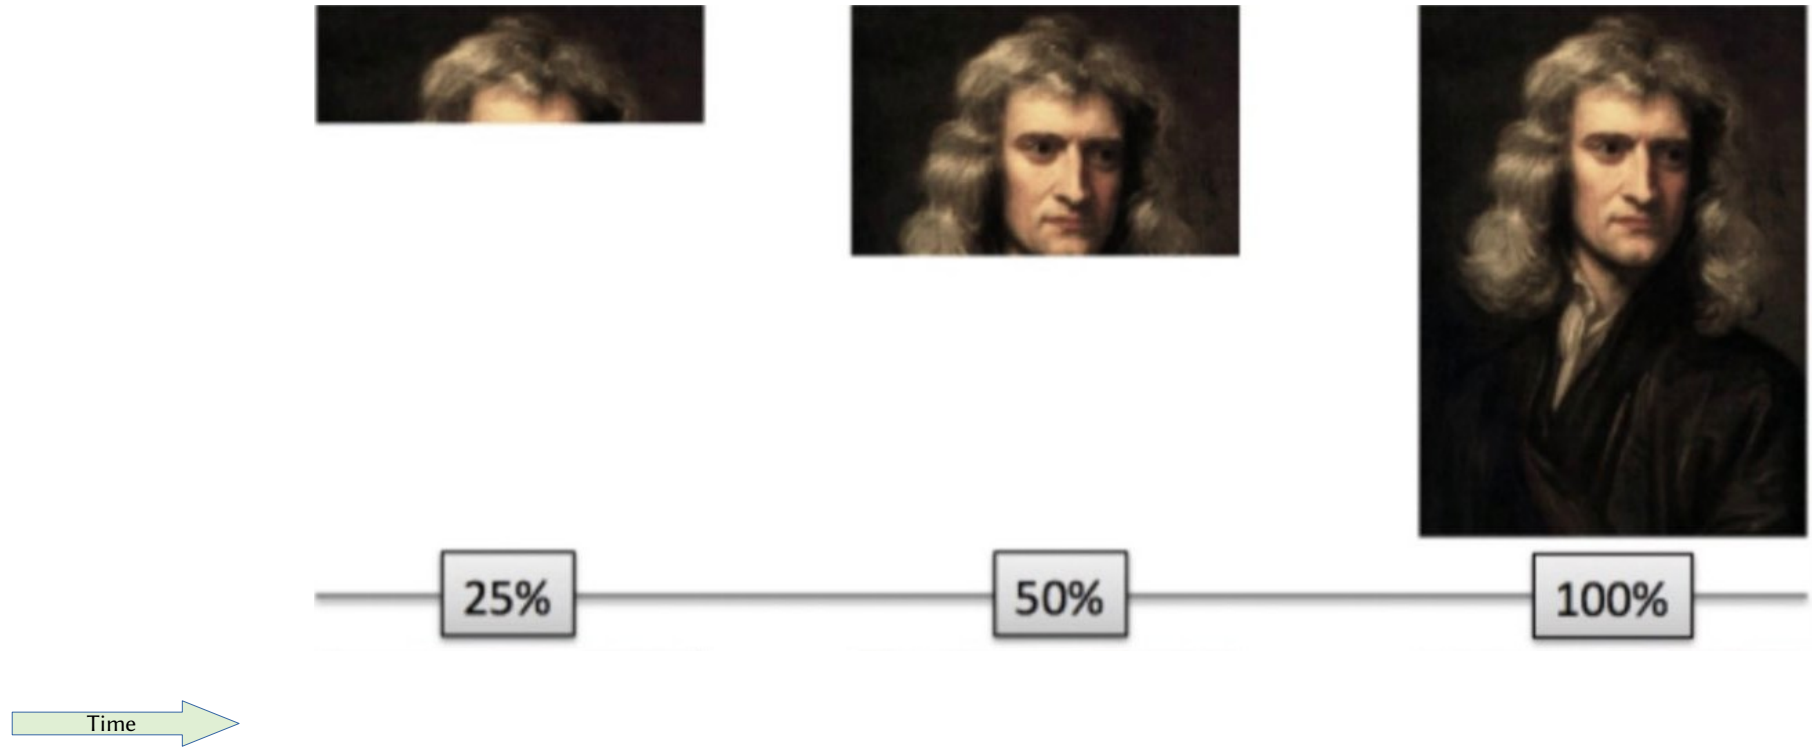

Writing – Standard Template

- Title = Concise
- Abstract = Trailer
- Section
 - Introduction
 - Related works
 - <ABC> Algorithm/Idea
 - Results/Experiments //Tables, Figs., Plots
 - Conclusion
 - References // BibTex
- Remember the flow of the story
- Grammar and spell-check

Writing – Ways to write

Writing – Method 1

Source: https://twitter.com/david_perell/status/1411852869804904450

Writing – Method 2

This method works for majority of people

25%

50%

100%

Time →

Writing – Submitting

- Conference or Journal format (.docx or TeX)
 - Page-limit (12-15pages)
 - Use overleaf and LaTeX //Must know for a CS researcher
 - No Plagiarism!
 - Stay away from predatory Journals!
-
- 45 to n days for decision
 - Review type
 - Single-blind
 - Double-blind

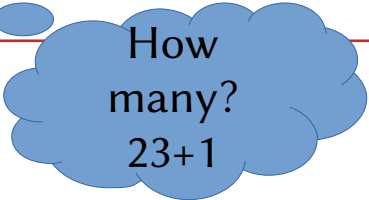

Demo

- LaTeX
 - [Overleaf](#) - How write?
 - Why it is useful?
 - Documentation
- Searching Paper in
 - [Google Scholar](#)
 - [DBLP](#)
- Subscribing for email alerts //Google Scholar
 - Experts in field
- Searching Conference
 - [WikiCFP](#)

Admission to IITx/IISc

- M.Tech

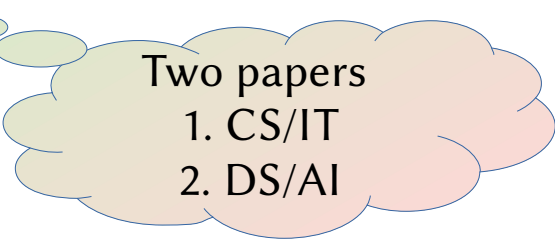

- GATE Exam <https://gate.iitm.ac.in>
- AIR ~150-1100 <http://mtechadm.iitm.ac.in>
- Common Offer Acceptance Portal <https://iitk.ac.in/coap2024/>
- Based only GATE scores
- GATE Rank + Interviews //Some IIT M.Techs

How
many?
23+1

- Direct PhD and M.S (Research)

- AIR ~200-2000
- Written test + Interview
- <https://research.iitm.ac.in>

Two papers
1. CS/IT
2. DS/AI

- PhD

- Masters + Bachelors CGPA
- Written test (GATE Level)
- Interview to two areas.

Projects,
Internships
